

PRESS RELEASE

CRESCENT POINT ENERGY ANNOUNCES CLOSING OF CANERA ENERGY ACQUISITION

May 15, 2014 CALGARY, ALBERTA. Crescent Point Energy Corp. (“Crescent Point” or the “Company”) (TSX and NYSE: CPG) is pleased to report that the previously announced acquisition (the “CanEra Acquisition”) of CanEra Energy Corp. (“CanEra”) closed today. With closing of the CanEra Acquisition, Crescent Point acquires a large Torquay land position at Flat Lake and conventional production in southeast Saskatchewan of approximately 10,000 boe/d.

“This acquisition significantly broadens our exposure to the Torquay, a play we’ve seen great results in so far. And the low-decline, high-quality production we gain is expected to help drive our total payout ratio down in 2015, which is another key benefit,” said Scott Saxberg, president and CEO of Crescent Point. “We look forward to developing the acquired assets to add long-term value for our shareholders.”

Forward-Looking Statements

Certain statements contained in this press release constitute “forward-looking statements” within the meaning of section 27A of the Securities Act of 1933 and section 21E of the Securities Exchange Act of 1934. The Company has tried to identify such forward-looking statements by use of such words as “expected”, “look forward to” and other similar expressions, but these words are not the exclusive means of identifying such statements.

In particular, this press release contains forward-looking statements pertaining to the expected production and decline performance characteristics of CanEra's oil and natural gas properties, the expected reduction in Crescent Point's payout ratio in 2015 and the expected development of the CanEra assets.

All forward-looking statements are based on Crescent Point's beliefs and assumptions based on information available at the time the assumption was made. Crescent Point believes that the expectations reflected in those forward-looking statements are reasonable but no assurance can be given that these expectations will prove to be correct and such forward-looking statements included in this report should not be unduly relied upon. By their nature, such forward-looking statements are subject to a number of risks, uncertainties and assumptions, which could cause actual results or other expectations to differ materially from those anticipated, expressed or implied by such statements, including those material risks discussed in our annual information form under “Risk Factors” and our Management's Discussion and Analysis for the year ended December 31, 2013, under the headings “Risk Factors” and “Forward-Looking Information.”

Barrels of oil equivalent (“boes”) may be misleading, particularly if used in isolation. A boe conversion ratio of 6 Mcf: 1 Bbl is based on an energy equivalency conversion method primarily applicable at the burner tip and does not represent a value equivalency at the wellhead.

Additional information on these and other factors that could affect Crescent Point's operations or financial results are included in Crescent Point's reports on file with Canadian and U.S. securities regulatory authorities.

Readers are cautioned not to place undue reliance on this forward-looking information, which is given as of the date it is expressed herein or otherwise and Crescent Point undertakes no obligation to update publicly or revise any forward-looking information, whether as a result of new information, future events or otherwise, unless required to do so pursuant to applicable law. All subsequent forward-looking statements, whether written or oral, attributable to Crescent Point or persons acting on the Company's behalf are expressly qualified in their entirety by these cautionary statements.

Crescent Point is one of Canada's largest light and medium oil producers, with a market capitalization of more than CDN\$18 billion and an annual dividend of CDN\$2.76 per share.
